A Letter from the Principal

Message to the Class of 2001

As I complete my first year as principal I look back at the challanges that I have encountered, and I consider the hurdles and hoops that await you as you embark on new adventures and new beginnings. Take with you the positive experience of your high school years to use as a foundation to build a bright and positive furture. Remind yourselves that even the smallest accomplishments are steps to larger victories.

Although I have had a limited time to get to know you all, I have been very impressed with your many achievments over the course of your senior year. View this yearbook as a reminder of your personal talents and as a lasting tribute to a formative time in your life. As you look back in later years you will cherish the reminders of your hard work, exploration, and just plain fun that captured and defined your high school years.

I hope that the MERHS community has served to help shape the individual that you have become as we have challanged you to strive for excellence. The faculty and staff strongly believe that each of you has unique qualities that will support your continued success. Reflect on the important experience that your high school years have offered as you continue as lifelong learners. Consider the words of Russel Delman who wrote, "We view life, our lives as a learning process in which we can uncover a more pleasurable and richer existence, beyond our self-limiting beliefs. We each have a different question to answer . . . a different individual to become." Continue to search for new questions as you find the meaning to life.

Best of luck,

Robert Shaps
Principal

Dedication

When students are asked about Mr. Congdon - math class is the first thing that comes to mind. However, Mr. Congdon has not only been there to teach us math, but he is also a great mentor. He has written us college recommendations, organized and chaperoned trips overseas, and taken us on college visits. With a quick wit, not only has Mr. Congdon taught us, but he has entertained us with his silliness. Mr. Congdon leads our sing alongs abroad and dances with us at our prom. For taking a deeper interest in helping his students, we would like to acknowledge his contributions to our high school experience. Thanks to you, Mr. Congdon, we will look back on high school with a smile.

Love,
MHS Class of 2001

The Mirror

"Dr. Papaderos, what is the meaning of life?"

The usual laughter followed, and people stirred to go.

Papaderos held up his hand and stilled the room and looked at me for a long time, asking with his eyes if I was serious and seeing from my eyes that I was.

"I will answer your question."

Taking his wallet out of his hip pocket, he fished into a leather billfold and brought out a very small round mirror, about the size of a quarter.

And what he said went like this:

"When I was a small child, during the war, we were very poor and we lived in a remote village. One day, on the road, I found the broken pieces of a mirror. A German motorcycle had been wrecked in that place.

"I tried to find all the pieces and put them back together, but it was not possible, so I kept only the largest piece. This one, and, by scratching it on a stone, I made it round. I began to play with it as a toy and became fascinated by the fact that I could reflect light into dark places where the sun would never shine – in deep holes and crevices and dark closets. It became a game for me to get light into the most inaccessible places I could find.

"I kept the little mirror, and, as I went about my growing up, I would take it out in idle moments and continue the challenge of the game. As I became a man, I grew to understand that this was not just a child's game but a metaphor for what I might do with my life. I came to understand that I am not the light or the source of light. But, light – truth, understanding, knowledge – is there, and it will shine in many dark places only if I reflect it.

"I am a fragment of a mirror whose whole design and shape I do not know. Nevertheless, with what I have I can reflect light into the dark places of this world – into the black places in the hearts of men and change some things in some people. Perhaps others may see and do likewise. This is what I am about. This is the meaning of my life."

-Robert Fulghum

Here I go. And everyone who was ever there and made it this good is to be thanked. I have been a daughter, a logic, a girlfriend, a sister, an actor, a friend, a winner. And who else allowed me to become all of these things and such a fab job at it but all of you, my friends, my family, my drama, my support, my future, my love. I love you all. I move on and I grow old and I grow up, but I will always grow with you as a part of me. Here we go.

I wonder what it's like to be a super hero
I wonder where I'd go if I could fly around downtown
from some other planet, I get this funky high on yellow sun
boy I bet my friends will be... stunned, they're stunned
straight up, what did you hope to learn about here
if I were someone else, would this all fall apart
strange, where were you, when we started this gig,
I wish the real world, would just stop hassling me
please don't change, please don't break
the only thing that seems to work at all is you
please don't change, at all from me
to you, and you to me

Best Memories-Hangin with my boys, and all our "adventures". Favorite quote- "If it looks good, you'll see it. If it sounds good, you'll hear it. If it's marketed right, you'll buy it. But...If it's real, you'll feel it"-Kid Rock. High School is over, but the fun has just begun. I would like to thank all of my friends for the GOOD memories. First off I would like to thank my parents. If it was not for their support I would have not made it this far. I would then like to thank all my friends. I would have gone insane if they weren't around. Thanks for being there so I could let off some of the pressure of everyday life. Then last but not least I would like to thank my teachers. They were not interesting everyday, but they still got me to know what was interesting to me. And to all my fellow seniors, when you are out in the real world, please remember this one thing: "The truth hurts. Maybe not as much as jumping on a bicycle with a seat missing, but it hurts." – Drebin, from Naked Gun 2 1/2.

Our Fantabulous Editors
Elly and Greta

Don't Cry For Me MHS Anchor
(A Dedication to Elly O'Beirne (a.k.a. Evita)
from Miss Petelle and the 2001 yearbook staff)

It won't be easy, you'll think it strange
When I try to explain how I feel
That I still love this yearbook after all that I've done

You won't believe me
All you will see is a girl you once knew
Although she's dressed up to the nines
Leaving Miss Petelle, Tom Keeley, and Ed Mercer behind

I had to let it happen, I had to change
Couldn't stay all my life in the computer room doing page after page
Looking out of the window, staying out of the sun

So I chose freedom
Running around, leaving all of those
pages and zip disks and photos behind
But nothing impressed me at all
I always had Greta, Julí, Lupe, Mary,
Catherine, Héctor, Ellie, Jen, and Tina in
mind.

Chorus: Don't cry for me MHS Anchor
My soul is with you
My whole life, I dedicate to this
yearbook
Don't keep your distance
I need you

And as for fortune, and as for fame
I never invited them in
Though it seemed to the senior class they
were all I desired

They are illusions
They're not the solutions they promise
to be
The answer was here all the time in this yearbook
I love you and hope you love me

Chorus 2:Don't cry for me MHS Anchor
I have never left you
Although in silence, my soul cries to you
Now and forever
[I am MHS Anchor]
I am MHS Anchor

Have I said too much?
There's nothing more I can think of to say to you.
But all you have to do is look at this yearbook to know
That every word is true

Original lyrics by Tim Rice adapted by Miss Petelle

Greta keeps yearbook form being too serious (AKA, she makes it tolerable) and she gets her pages done!

Julianna

Greta is a very determined and hardworking individual...she keeps the moment going and makes sure things get done right.

Greta puts a tremendous amount of effort into the yearbook and deserves much appreciation.

Mary

Greta puts in a lot of her time working on our yearbook. She is very dedicated to the entire process. I am glad that she is our co-editor.

Tina

Darling! Look at my page(110)! I love you.

Elly

Greta helped me with yearbook and made it enjoyable.

Tracy

Greta was great in yearbook and helped me learn how to do everything very nicely.

Hunter

Greta is the bestest ever! Without her we could have flushed the yearbook down the toilet! Thank you so much for your time and insanity!

Catherine

You gotta love those late night yearbook meetings when Greta is around!! Always willing to help or teach, Greta was an essential part of the yearbook staff. THANK YOU!

Pam

I just don't know how she does what she does between plays, homework, college and all the time and dedication that yearbook requires. I think that the whole class appreciates what she has done, and I hope she realizes what an amazing person she is!

Ellie

Elly & Greta,

You will be missed not only by the MHS Anchor, but by everyone here at MHS. Thank you for the countless hours you both spe in the computer room, and for your extremely hard work. Your creativity and personality can be seen throughout this amazing yearbook and you should both be incredibly proud.

We will truly miss you. Good luck next year! You deserve all of the success that lies in your future.

his yearbook has been pretty tough to make, but it was totally worth it. It would not ave been possible if not for all the dedicated members of the staff. The meetings ere long and hard, but the people were simply great.

lly- there couldn't have been a better editor to work with. Thanks for keeping me in ne and getting on my case when I needed it. Thanks for understanding. Thanks for ot killing me when I told you I wanted to quit. Thanks for the laughs (and cries of ustration) at those late night meetings. Thanks for making this book so wonderful.

o all my favorite staffers- I can't even imagine trying to do this book without you. ach of you put in such a great deal of time and effort. Thank you for that. Thanks r being creative and doing your pages on time. Thanks for staying late - even on alloween night and when you had that huge English paper due the next day. hanks for having a sense of humor and being so fantastic.

nd to Ms. Petelle- Thanks so much for making this book happen. Thanks for agree- g to disagree (regarding backgrounds, clip art, etc). Thanks to you we were orga- ized - and were able to coordinate with Mercer and the publisher so well.

Vell class of 2001, the last several years have been long and crazy, but we've finally ade it. We all went through so much to get here - but nothing can change that e've all been successful in our own ways.

s your classmate, I wish you all the best of luck. Go places, challenge yourself, ake magic, remember who you are and keep your chin up...

s co-editor of this yearbook, I want to tell you to take this book with you next year. lly, myself, and the entire yearbook staff did our best to capture what high school as about (yes, with quite a bit of censorship, however). So, in a year's time - when ou are in your own corner of the world - take this book out and remember high hool as it was (hopefully in a positive light).

Best wishes,

Greta

Greta - You are a wonderful amazing person & I am so proud to have worked with you on this book! I know we didn't always get our way, but we did our best. I love you and I will miss ya next year, but please remember yearbook for the fun we had and read it with a smile

Okay, so there is absolutely NO reason as to why I deserve my own page when everyone else who worked just as hard as I did to meet the deadlines doesn't get one. However, because I do, I am going to try taking advantage of it.

I wanted to say "Thank you" to everyone who made this book possible. It would not have happened without: the yearbook staff (I love you guys!!!), Tom Keeley, Mr. Shaps, Mr. Connolly Miss Petelle, and all the teachers and janitors who supervised us (and kicked us out)... Most of all... Greta, princess, I am so grateful that I got to work with you this year and thanks for seeing it through. You made it bearable, I really do appreciate you skipping play practices for me, and I'm proud of this book.

Obviously we couldn't make everyone happy, but I hope that we have given you something that you can take down from the shelf occasionally to flip through with a grin. I know that when I do, I will be reminded of my six years at good old MHS (or MERHS), the good and the bad, my friends from the beginning, today, and those I will keep forever. Know that it isn't the physical book that matters, but all the memories that come attached to it. I sincerely hope that yours are as positive as mine (Sappy, I know... I'm sorry).

As far as the book goes, we tried to make it pretty and fun despite some censorship (Caleb and JJ we really loved those pictures). If you have gotten this far in the book, we must have been somewhat successful. Thanks to everyone at MHS for all the memories.

Good luck class of 2001!
Congratulations guys,
We made it!

"Our deepest fear is not that we are inadequate. Our deepest fear is that we are powerful beyond measure. It is our light, not our darkness, that most frightens us. We ask ourselves, who am I to be brilliant, gorgeous, talented and fabulous?

Actually, who are you not to be? Your playing small doesn't serve the world. There is nothing enlightened about shrinking so that others wont feel insecure around you. We were born to make manifest the glory of God that is within us. It is not just within some of us; it is in everyone.

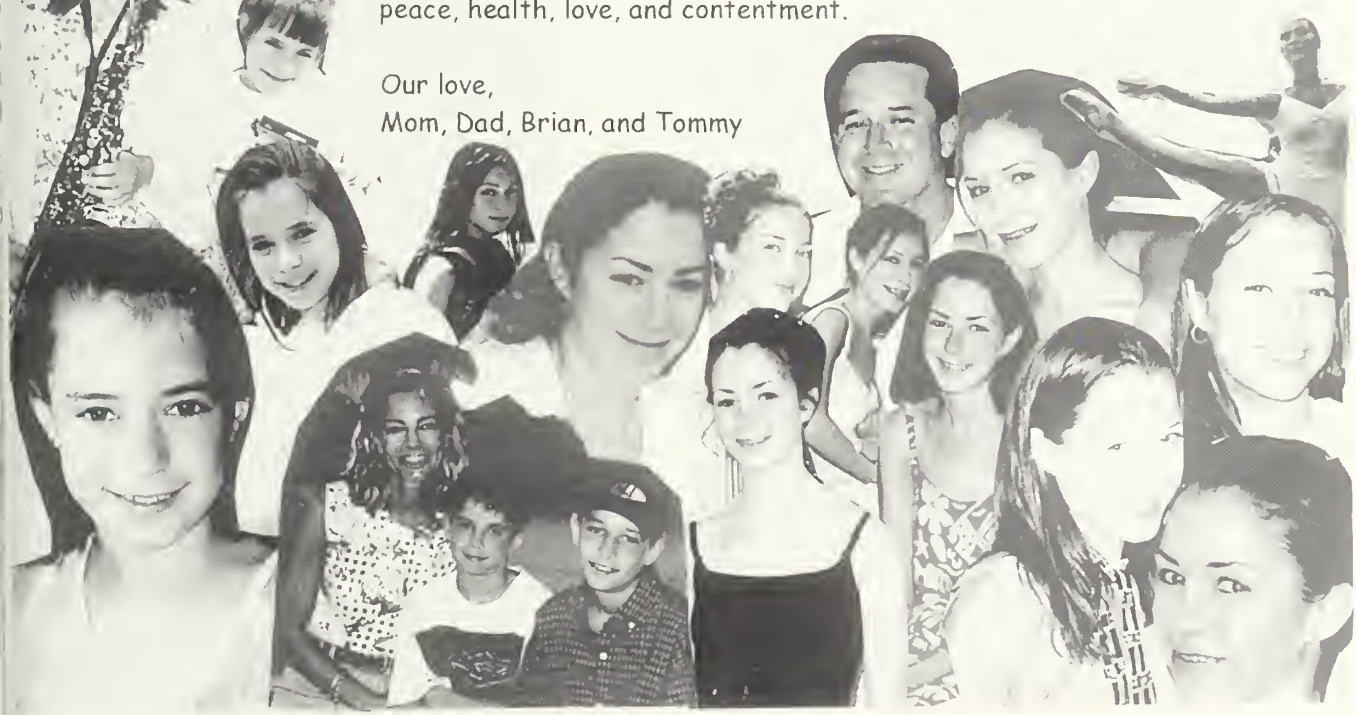
And, as we let our light shine, we unconsciously give other people permission to do the same. As we are liberated from our own fear, our presence automatically liberates others."

Nelson Mandela, 1994

Erin,

You are the light, the love, and the radiance that completes our family. We cherish your spirit, your grace, your perseverance, your kindness, and your independence. We look forward to the future, and know that your success will be all-pervading. Our hope for you is joy, peace, health, love, and contentment.

Our love,
Mom, Dad, Brian, and Tommy



A bushel and a peck and a hug around the neck-

We love you Pam, Mama, Papa, & Jessie

Do not go where the path may lead,
go instead where there is no path
and leave a trail.

Lorianne,

We feel blessed and very proud to have a daughter like you. Wherever your path may lead, we wish you happiness and success.

LOVE,
Mom and Dad

To My Precious Daughter,
Emily,
How can we ever forget...
Rafting down magnificent canyons,
hiking through sandstone arches,
swimming with gentle dolphins,
and diving in crystal reefs...
our journeys together have
shown me how very special you are...
within your hands are special gifts
and talents, within your mind
is the source of your dreams,
within you is the strength to
carry your dreams to completion,
within your heart is the desire to
make a difference in this world...
I want you to know how very much
I love you and how proud I am of you.
All my love forever,
Mom

You don't need direction
You know which way to go
I don't want to hold you back
I just want to watch you grow.

Nobody's gonna kill your dreams
Or tell you how to live your life
There'll always be people
To make it hard for awhile
But you'll change their heads
When they see you smile.

Oh, yes, sweet darlin'
So glad you are a child of mine.

We admire you for all the good choices you have made, and we are immensely proud of the bright, determined"full of life" young man you have become.

What is that saying about giving your children Roots and Wings? You will soar with the strong beautiful wings you have grown!

Take care of yourself and your friendships. Laugh and sing, dig in the dirt and plant things; travel, climb mountains, swim, hear the music, do good things with that great mind of yours! Be happy!

Be young with all your might!

We will always love you.
Mom, Dad, Chris, Matthew

Dear Josiah,

We are so proud of you. Your accomplishments during the last welve years of school at Manchester have been many. In both academics and sports you have known success. One thing that truly stands out in our minds is your wonderful outgoing personality. Several of your teachers coaches throughout the years have commented on your ability and ease to be friends with all your peers. What a terrific attribute! As you enter this new chapter of your life, always believe in yourself, and know we are there for you every step of the way. Josiah, "Shoot for the moon. If you miss you will land among the stars." You're the best!

Love,
Mom, Dad, Justin, and Brittany

Look around and you'll agree that the really happy people are those who have broken the chains of procrastination, those who find satisfaction in doing the job at hand. They're full of eagerness, zest, productivity. You can be, too.

Be the best

If you can't be a tree on top of a hill
Be a shrub in the valley, but be the
Best little shrub on the side of the rill.
Be a bush if you can't be a tree.
We all can't be captains ~
There's got to be crew,
There's something for all of us here.
There are big things to do,
And there's lesser to do
And the task you must do
Is the near.
If you can't be a highway,
Then just be a trail.
If you can't be the sun, be a star.
It's not the job that you win
Or you fail
Be the best of whatever you are.

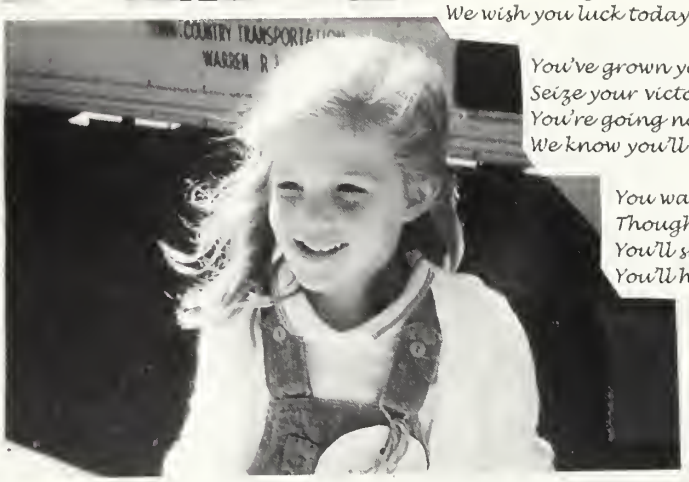
You're leaving now to slay the foe-
Fight the battles, high and low.
You're leaving now, we'll see you go!
We wish you luck today.



You've grown your wings, you want to fly,
Seize your victories where they lie.
You're going now, and we wont cry-
We know you'll find you're way.

You want to see and touch and hear,
Though there are dangers, there are fears.
You'll smile your smile s and dry your tears-
You'll have to speak your say.

You're off to find your world, your dreams,
Carve your niche, sew your seams,
Remember, as you sail your streams-
We'll love you, all the way.
-Adapted from "Chicken Soup for the Soul"

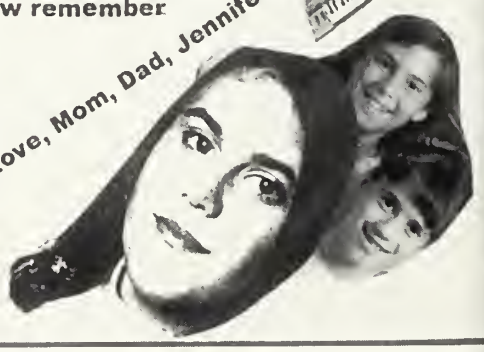
OUR DEAR DAUGHTER

Sandra, your dad chose this name for you, which fits your personality very well. Elizabeth, your middle name your mother choose for you. Downey, your last name not spelled like the fabric softener, nor Downing, you received from your father's side of the family and some day when you wed you may keep it, for it depends on you!

You as a person knows how to draw, dance, and sing among various other talents you do have. So chose one that will give you all the rewards you need in life. You our daughter, as a teenager will be on your own some-day, and you will be on your way to challenge the world as a young adult, just remember we, your parents will always be there for YOU!!

When you have your own children some-day remember the stories we told you when you were a little one. As a baby being a twin, you and your sister Jennifer, were growing to admire the world with open eyes, of innocence and trying to experience the unknown each day. To reach out and grasp everything in your reach, to stumble and fall, and get back on your feet. With the laughter, and the tears you have giving us, your mother and father, you are the highlight of our day. So as I have said when you need to reach someone in your every-day travels as you grow remember Mom and Day.

Love, Mom, Dad, Jennifer, Grandparents



Chris-

We watched you grow from a quiet little boy, to a confident young man. Whatever you choose to do in life, we know you will always make us proud.

Love,

Mom & Dad

Good Luck Brianne,

you are going.

Kristi,

I am so proud of you! You are a beautiful young lady inside and out. You have given me so much strength. Life hasn't been the easiest for us, and you had to grow up so quickly. You walk with your head high and stand strong! I know you will accomplish anything that you put your mind to and will do it well. You have brought joy to my life and I will always support and love you no matter what the long road ahead brings.
" You've got to dance like nobody's watching and love like it's never going to hurt... People say true friends must always hold hands, but true friends don't need to hold hands because they know the other hand will always be there"
You are my best friend and I will always be there for you.
Congratulations Kristi I LOVE YOU – Mom

Kristi Leigh;
From crib to high school graduation, you have been the light that has brought us through many dark days. The loving care that you gave to brother Joshua during his much too short life, to the way you have handled many of our family crisis, has made all of us stronger.
Congratulations, and know that no matter what you want to accomplish, it is only a wish and determination away.
We love you and are very proud of you.....Much love Nan & Grampy

Kristi,
When Emily stated that she wanted to be just like you when she is a teenager I was thrilled. Since you were eight years old, your thoughtfulness, kindness, generosity and gentle spirit have warmed my soul. Your character is admirable and precious. To all of us that know you, Kristi, your are a treasure from the Lord.....Much Love Lynn

Kristi...
You have become an integral and special part of our family and we and the boys, as well as Tiffany, love you so much. We appreciate your tenderheartedness, your servant's heart, and your love for Christ. We will always remember the day you stood before the church and shared your faith.... A wonderful testimony of God's calling and your responding.
This verse we pray for you *Ephenians 3 vs 14-19*
